

Dynamic Source

RoHS Policy Statement

Issue date: 24.06.2019

The EU Directive 2015/863 on the Restriction of the use of certain Hazardous Substances (RoHS III), replacing Directive 2011/65/EU (RoHS II) replacing 2002/95/EC (RoHS I), targets Electrical and Electronic Equipment (EEE) in order to avoid adverse impacts on human health and the environment.

Dynamic Source is fully aware of the requirements of the RoHS EU Directive 2015/863. Roles and obligations have been identified by Dynamic Source to the best of its knowledge.

As a distributor of electronic components, we respond to our customers' requirements by sourcing products to the exact specifications as set forth by the customer.

Although it remains the responsibility of the customer to accurately detail the exact product specifications, Dynamic Source will always assist with any necessary fact findings in order to supply the product required.

Dynamic Source performs no testing products and relies solely on the manufacturer of the product for identification of RoHS Compliance. Dynamic Source makes no warranty, certification, or declaration of compliance. All statements by Dynamic Source of RoHS compliance, are based on Manufacturer information such as data sheets, manufacturers website, or any other documentation provided by the manufacturer.

Sincerely

Dynamic Source Europe GmbH
